Overall Program Highlights

- ETA Internet-Based Assistance Web sites received a total of 9.5 million visits in the April-June 2008 quarter;
- CareerOneStop's Disaster Recovery Services site is now available. This Web site (<http://www.careeronestop.org/disasterrecoveryservices/default.aspx>) provides quick access to a range of employment and related resources for individuals and businesses impacted by floods and other recent disasters;
- The Competency Model Clearinghouse, an online database available through the CareerOneStop Portal, now offers the Career Ladder/Lattice Tool;
- In June 2008, O*NET released the new 13.0 O*NET development database. This provides a comprehensive update for another 108 O*NET-SOC occupations. This release brings to 809, out of 812 detailed O*NET occupations, over 99 percent of the total, that now contain updated information collected through a survey of incumbent workers or experts. ;
- The ETA Toll Free Help Line (1-877-US2-JOBS), a public information companion to America's Service Locator, received 50,699 calls on workforce issues.

Program Description:

ETA's Internet-Based Assistance includes electronic tools that help individuals explore career opportunities and occupations, either electronically or at local One-Stop Career Centers, to make informed employment and education choices. The Web sites feature user-friendly occupation and industry information, salary data, career videos, education resources, career exploration assistance, and other resources that support talent development in today's fast-paced global marketplace. Users can find information, some of which is also industry sponsored, about occupations that are in-demand in high growth industries. Additionally, information is also available regarding occupational skills and workplace competencies.
